(Viriato 20, Madrid)

Salesforce certified instructors

32 hours of classroom training

Small class size allows more
personalized learning

> Outcomes

Upon completion of the Administration Essentials for Experienced Admins: ADM-211, you will be able to:

1. Determine and implement appropriate data access and visibility settings.
2. Manage configuration changes in a sandbox environment and move data between environments using change sets.
3. Extend the functionality of your implementation with custom objects and Apps.
Extend your reporting to provide up-to-date views of your business
4. Customize the Salesforce1 app and create quick actions to increase efficiency.
5. Improve data quality so that the ongoing task of data maintenance is not so overwhelming. Set up workflow automation. Implement complex business processes using work flow rules, processes, approval processes, and flows.

> Aimed at

Administration Essentials for Experienced Admins is designed for: Administrators with at least six months of experience using Salesforce; and/ or Administrators who have completed the Administration Essentials for New Admins course.
